ISSN 2040–1604

## A National Statistics publication

National Statistics are produced to high professional standards set out in the [Code of Practice](#) for Official Statistics. They are produced free from political influence.

The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods, and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.

## About us

### The Office for National Statistics

The Office for National Statistics (ONS) is the executive office of the UK Statistics Authority, a non-ministerial department which reports directly to Parliament. ONS is the UK government's single largest statistical producer. It compiles information about the UK's society and economy, and provides the evidence-base for policy and decision-making, the allocation of resources, and public accountability. The Director-General of ONS reports directly to the National Statistician who is the Authority's Chief Executive and the Head of the Government Statistical Service.

### The Government Statistical Service

The Government Statistical Service (GSS) is a network of professional statisticians and their staff operating both within the Office for National Statistics and across more than 30 other government departments and agencies.

## Chapter 1: National accounts at a glance

1.1.1	Gross domestic product and gross national income.....	20
1.1.2	Gross domestic product by category of expenditure.....	22
1.1.3	Gross domestic product by category of income.....	25
1.1.4	Gross domestic product and shares of income and expenditure.....	26
1.1.5	Income, product and spending per head.....	27
1.1.6	Gross value added chained volume measure, by category of output.....	29
1.1.7	Gross domestic product at basic prices: individual measures.....	31
1.1.8	Gross fixed capital formation by sector and type of asset.....	32
1.1.9	Inventories.....	34
1.1.10	Exports and imports of goods and services.....	36
1.1.11	Gross operating surplus .....	38
1.1.12	Consumption of fixed capital .....	39
1.1.13	Revisions analysis.....	40
1.6.B9	Net lending/borrowing by sector.....	41
1.6.3	UK allocation of primary income account.....	42
1.6.4	UK secondary distribution of income account.....	45
1.6.5	UK redistribution of income in kind.....	51
1.6.6	UK use of disposable income account.....	52
1.6.7	UK accumulation accounts.....	54
1.6.8	UK net acquisition of financial assets/liabilities.....	57
1.6.9	UK financial balance sheet.....	63

## Chapter 3: Non-financial corporations

3.1.3	Non-financial corporations: Allocation of primary income account.....	69
3.1.4	Non-financial corporations: Secondary distribution of income account.....	71
3.1.7	Non-financial corporations: Accumulation accounts.....	72
3.1.8	Non-financial corporations: Net acquisitions of financial assets/liabilities.....	73
3.1.9	Non-financial corporations: Financial balance sheet.....	75
3.2.3	Public corporations: Allocation of primary income account.....	78
3.2.4	Public corporations: Secondary distribution of income account.....	80
3.2.7	Public corporations: Accumulation accounts.....	81
3.2.8	Public corporations: Net acquisitions of financial assets/liabilities.....	82
3.2.9	Public corporations: Financial balance sheet.....	84
3.3.3	Private non-financial corporations: Allocation of primary income account.....	86
3.3.4	Private non-financial corporations: Secondary distribution of income account...	88
3.3.7	Private non-financial corporations: Accumulation accounts.....	89

3.3.8	Private non-financial corporations: Net acquisitions of financial assets/ liabilities.....	90
3.3.9	Private non-financial corporations: Financial balance sheet.....	91

## Chapter 4: Financial corporations

4.1.3	Financial corporations: Allocation of primary income account.....	94
4.1.4	Financial corporations: Secondary distribution of income account.....	96
4.1.6	Financial corporations: Use of disposable income account.....	98
4.1.7	Financial corporations: Accumulation accounts.....	99
4.1.8	Financial corporations: Net acquisitions of financial assets/liabilities.....	100
4.1.9	Financial corporations: Financial balance sheet.....	104
4.2.8	Monetary financial institutions: Net acquisitions of financial assets/liabilities....	108
4.2.9	Monetary financial institutions: Financial balance sheet.....	111
4.3.8	Financial corporations except monetary financial institutions and insurance companies and pension funds: Net acquisitions of financial assets/liabilities....	113
4.3.9	Financial corporations except monetary financial institutions and insurance companies and pension funds: Financial balance sheet.....	115
4.4.8	Insurance companies and pension funds: Net acquisitions of financial assets/ liabilities.....	117
4.4.9	Insurance companies and pension funds: Financial balance sheet.....	119

## Chapter 5: General government

5.1.3	General government: Allocation of primary income account.....	122
5.1.4	General government: Secondary distribution of income account.....	124
5.1.5	General government: Redistribution of income in kind.....	126
5.1.6	General government: Use of disposable income account.....	127
5.1.7	General government: Accumulation accounts.....	128
5.1.8	General government: Net acquisitions of financial assets/liabilities.....	130
5.1.9	General government: Financial balance sheet.....	132
5.2.3	Central government: Allocation of primary income account.....	134
5.2.4	Central government: Secondary distribution of income account.....	136
5.2.5	Central government: Redistribution of income in kind.....	138
5.2.6	Central government: Use of disposable income account.....	139
5.2.7	Central government: Accumulation accounts.....	140
5.2.8	Central government: Net acquisitions of financial assets/liabilities.....	142
5.2.9	Central government: Financial balance sheet.....	144
5.2.10	Central government: British government securities.....	146
5.3.3	Local government: Allocation of primary income account.....	148
5.3.4	Local government: Secondary distribution of income account.....	150
5.3.5	Local government: Redistribution of income in kind.....	152
5.3.6	Local government: Use of disposable income account.....	153
5.3.7	Local government: Accumulation accounts.....	154
5.3.8	Local government: Net acquisitions of financial assets/liabilities.....	156
5.3.9	Local government: Financial balance sheet.....	158

## Chapter 6: Households and non-profit institutions serving households (NPISH)

6.1.3	Households and NPISH: Allocation of primary income account.....	160
6.1.4	Households and NPISH: Secondary distribution of income account.....	163
6.1.5	Households and NPISH: Redistribution of income in kind.....	166
6.1.6	Households and NPISH: Use of disposable income account.....	167
6.1.7	Households and NPISH: Accumulation accounts.....	168
6.1.8	Households and NPISH: Net acquisitions of financial assets/liabilities.....	169
6.1.9	Households and NPISH: Financial balance sheets.....	172
6.1.10	Households and NPISH: Consumption and saving.....	175
6.2	Household final consumption expenditure at current prices.....	176
6.3	Household final consumption expenditure at chained volume measures.....	178

## Chapter 7: Rest of the world

7.1.2	Rest of the world: External allocation of secondary income account.....	180
7.1.7	Rest of the world: Accumulation accounts.....	185
7.1.8	Rest of the world: Net acquisitions of financial assets/liabilities.....	186
7.1.9	Rest of the world: Financial balance sheets.....	189

## Chapter 14: Flow of funds

14.1	Financial account: Total economy: all sectors and the rest of the world. Unconsolidated .....	192
14.2	Financial balance sheet: Total economy: all sectors and the rest of the world. Unconsolidated.....	196
14.3.1	F.1 Monetary gold and Special Drawing Rights.....	200
14.3.2	F.2 Currency and deposits.....	201
14.3.3	F.3 Debt securities.....	202
14.3.4	F.4 Loans.....	203
14.3.5	F.5 Equity and investment fund shares/units.....	204
14.3.6	F.6 Insurance, pension & standardised guarantee schemes.....	205
14.3.7	F.7 Financial derivatives and employee stock options.....	206
14.3.8	F.8 Other accounts receivable/payable.....	207

**Balance of Payments**

B1	Summary of balance of payments: Balances (net transactions).....	208
B2	Trade in goods, seasonally adjusted.....	209
B2A	Trade in goods, not seasonally adjusted.....	210
B3	Trade in services, seasonally adjusted.....	211
B3A	Trade in services, not seasonally adjusted.....	212
B4	Income, seasonally adjusted.....	213
B4A	Income, not seasonally adjusted.....	214
B4B	Investment income: Sector analysis.....	215
B5	Current transfers, seasonally adjusted.....	216
B5A	Current transfers, not seasonally adjusted.....	217
B6	Current account: Transactions with the European Union (EU) and with non-EU countries, seasonally adjusted.....	218
B6A	Current account: Transactions with the European Union (EU) and with non-EU countries, not seasonally adjusted.....	219
B6B	Current account: Transactions with non-EU countries, seasonally adjusted.....	220
B6C	Current account: Transactions with non-EU countries, not seasonally adjusted.....	223
B7	Capital account, seasonally adjusted.....	226
B7A	Capital account, not seasonally adjusted.....	227
B8	Financial account; not seasonally adjusted.....	228
B9	Financial account: Sector analysis.....	229
B10	Financial account; Direct investment, not seasonally adjusted.....	230
B11	Financial account; Portfolio investment, not seasonally adjusted.....	231
B12	Financial account; Other investment, not seasonally adjusted.....	233
B13	Financial Account: Central government reserve assets (net debits), not seasonally adjusted.....	236
B14	International Investment Position.....	237
B15	International Investment Position: Sector analysis.....	238
B16	International Investment Position: Direct Investment.....	239
B17	International Investment Position: Portfolio Investment.....	240
B18	International Investment Position: Other Investment.....	242
B19	International Investment Position: Central government reserve assets.....	245
B20	External debt statement.....	246

# UK Economic Accounts

Coverage: **UK**

Date: **31 March 2016**

Geographical Area: **UK**

Theme: **Economy**

---

## Overview of the UK Economic Accounts

The UK Economic Accounts (UKEA) provides detailed estimates of national product, income and expenditure, UK sector accounts and UK balance of payments. UKEA is published at quarterly, [pre-announced](#) intervals alongside the [Quarterly National Accounts](#) and quarterly [Balance of Payments](#) statistical bulletins.

The UKEA includes income, capital and financial accounts which are produced for non-financial corporations, financial corporations, central government, local government and households and non-profit institutions serving households (NPISH) sectors, and for the UK. Financial transactions and balance sheets are produced for the rest of the world sector in respect of its dealings with the UK. These accounts are the underlying data that produce a single estimate of gross domestic product (GDP) using income, production and expenditure data.

The accounts are fully integrated, but with a statistical discrepancy, known as the statistical adjustment, shown for each sector account. This reflects the difference between the sector net borrowing or lending from the capital account and the identified borrowing or lending in the financial accounts, which should theoretically be equal.

## The integrated economic accounts

The integrated [economic accounts](#) of the UK provide an overall view of the economy. The accounts present a summary view of the accounts, balancing items and main aggregates and shows how they are expressed.

The accounts are grouped into 4 main categories

- the goods and services accounts
- current accounts
- accumulation accounts
- balance sheets.

All the above accounts appear in the annual UK [National Accounts](#) (Blue Book) [publication](#). Due to time constraints and availability of data, the quarterly UKEA does not publish the goods and services

account, or the first account of the current accounts (the production account), but the remaining accounts (Accounts II to V) are published.

Further information can be found in [an introduction to UK sector accounts](#)

## **1. Current account**

### **a. The distribution and use of income accounts (Account II)**

The distribution and use of income account shows the distribution of current income (value added) carried forward from the production account and has saving as its balancing item (B.8). Saving is the difference between income (disposable income) and expenditure (or final consumption).

The distribution of income is broken down into 3 sub-accounts

- the primary distribution of income
- the secondary distribution of income
- the redistribution of income in kind.

#### **i. The primary distribution of income account**

Primary incomes are accrued to institutional units due to their involvement in production or their ownership of productive assets, including:

- property income (from lending or renting assets)
- taxes on production and imports.

And excluding:

- taxes on income or wealth
- social contributions/benefits
- other current transfers.

The primary distribution of income shows the way these are distributed among institutional units and sectors. The primary distribution account is divided into 2 sub-accounts – the generation and the allocation of primary incomes.

#### **ii. The secondary distribution of income account**

The secondary distribution of income account shows how the balance of primary incomes for an institutional unit or sector is transformed into its disposable income by the receipt and payment of current transfers (excluding social transfers in kind).

The 2 further sub-accounts (the use of disposable income and the use of adjusted disposable income) look at the use of income for either consumption or saving.

#### **iii. The redistribution of income in kind**

The redistribution of income in kind account shows how gross disposable income of households and non-profit institutions serving households and of government are transformed by the receipt and payment of transfers in kind. The balancing item for this account is adjusted gross disposable income (B.7g).

## **2. The accumulation accounts (Accounts III and IV)**

The accumulation accounts cover all changes in assets, liabilities and net worth. The accounts are structured into 2 groups.

The first group of accounts (Account III) cover transactions which would correspond to all changes in assets or liabilities and net worth that result from transactions and are known as the capital account and the financial account. They are distinguished to show the balancing item net lending/borrowing.

The second group of accounts (Account IV) relate to all changes in assets, liabilities and net worth due to other factors, for example, the discovery or re-evaluation of mineral reserves, or the reclassification of a body from one sector to another.

### **a. Capital account (Account III.1)**

The capital account concerns the acquisition of non-financial assets (income creating or wealth only) such as fixed assets or inventories, financed out of saving, and capital transfers involving the redistribution of wealth. Capital transfers include, for example, capital grants from private corporations to public corporations.

The account shows how savings finance investment in the economy. In addition to gross fixed capital formation and changes in inventories, it shows the redistribution of capital assets between sectors of the economy and the rest of the world. If the balance on the account is negative, it is described as net borrowing and measures the net amount a unit or sector is obliged to borrow from others. If positive, the balance is described as net lending and measures the amount the UK or a sector has available to lend to others. This balance is also referred to as the financial surplus or deficit and the net aggregate for the 5 sectors of the economy equals net lending/borrowing from the rest of the world.

### **b. Financial account (Account III.2)**

The financial account shows how net lending and borrowing are achieved by transactions in financial instruments. The net acquisitions of financial assets are shown separately from the net incurrence of liabilities. The balancing item is net lending/borrowing. In principle, net lending or borrowing should be identical for both the capital account and the financial account. In practice, however, due to errors and omissions this identity is very difficult to achieve for the sectors and the economy as a whole. The difference is known as the statistical discrepancy.

### **c. The balance sheet (Account IV)**

The second group of accumulation accounts complete the sequence of accounts. Included in these accounts are the balance sheets and a reconciliation of the changes that have brought about the change in net worth between the beginning and end of the accounting period. The opening and closing balance sheets show how total holdings of assets by the UK or its sectors match total liabilities and net worth (the balancing item). Net worth equals changes in assets less changes in liabilities.

Various types of assets and liabilities can be shown in detailed presentations of the balance sheets. Changes between the opening and closing balance sheets for each group of assets and liabilities result from transactions and other flows recorded in the accumulation accounts, or reclassifications and revaluations.

## The rest of the world account (Account V)

The rest of the world account covers the transactions between resident and non-resident institutional units and the related stocks of assets and liabilities. Written from the point of view of the rest of the world, the account is similar in role to an institutional sector.

## Codes used in tables

The codes used are consistent with the European System of Accounts, revised 2010 (ESA2010).

The ESA 2010 code for each series is shown in the tables, using the following prefixes

- S for the classification of institutional sectors,
- P for transactions in products,
- D for distributive transactions,
- F for transactions in financial assets and liabilities,
- K for other changes in assets,
- B for balancing items and net worth.

Within the financial balance sheets, the following prefixes are used

- AF for financial assets/liabilities

More information on ESA2010, along with a [downloadable manual](#), can be found on the [European Union's Eurostat page](#)

## Financial intermediation service charge indirectly measured

Financial intermediation service charge indirectly measured (FISIM) is the process whereby a financial institution such as a bank accepts deposits from units (people and institutions) wishing to receive interest on funds, and lends them to units wishing to borrow.

The bank acting as an intermediary provides a mechanism to allow the first unit to lend to the second. The unit lending funds accepts a rate of interest lower than that paid by the borrower. A 'reference rate' of interest is the rate at which both lender and borrower would be happy to strike a deal. The difference between interest calculated at the reference rate and interest actually paid to depositors and charged to borrowers is a financial intermediation service charge indirectly measured. Total FISIM is the sum of the implicit fees paid by the borrower and the lender.

FISIM are produced by deposit-taking corporations except the central bank (S.122); and other financial intermediaries, except insurance corporations and pension funds (S.125).

Interbank FISIM are the FISIM produced between financial intermediaries (FIs). By convention, no interbank FISIM has to be calculated between resident FIs, nor between resident FIs and non-resident FIs. FISIM are calculated in respect of non-bank user institutional sectors only. FISIM are allocated into intermediate and final consumption.

There is a full description of the implementation of FISIM in the article, 'Improving the measurement of banking services in the UK National Accounts. Economic and Labour Market Review', (**Link:** <http://webarchive.nationalarchives.gov.uk/20160105160709/http://www.ons.gov.uk/ons/guide-method/method-quality/specific/economy/national-accounts/articles/2011-present/national-accounts-articles---changes-to-financial-intermediation-services-indirectly-measured.pdf> )

## Quality

### Important quality issues

Common pitfalls in interpreting series are;

- expectations of accuracy and reliability in early estimates are often too high
- revisions are an inevitable consequence of the trade off between timeliness and accuracy
- early estimates are based on incomplete data

Very few statistical revisions arise as a result of 'errors' in the popular sense of the word. All estimates, by definition, are subject to statistical 'error', but in this context the word refers to the uncertainty inherent in any process or calculation that uses sampling, estimation or modelling. Most revisions reflect either the adoption of new statistical techniques, or the incorporation of new information which allows the statistical error of previous estimates to be reduced. Only rarely are there avoidable 'errors' such as human or system failures, and such mistakes are made clear when they do occur.

### GDP quarterly alignment adjustments

To improve the coherence of the quarterly accounts, adjustments are made to quarterly estimates of both the expenditure and income analyses of GDP for 1983 onwards. These adjustments, which sum to zero across each complete year, are attributed to the change in inventories component of GDP analysed by expenditure and to gross operating surplus of companies component analysed by income. These adjustments may be considered as allowing for timing differences in the recording of transactions in different parts of the economy.

In addition, accurate quarterly measurement is more difficult for the changes in inventories component. These quarterly adjustments modify the aggregates derived from expenditure or income components to better reflect the quarter-to-quarter paths of the output measure of GDP.

### Income, product and spending per head

The annual per head data in Table 1.1.5 is calculated using mid-year population estimates. The quarterly per head series will not sum to the annual total as the quarterly series use constructed population numbers estimated using successive annual mid-year population figures.

### National Accounts methodology and articles

We regularly publish [methodological information and articles](#) to give users more detailed information on developments within the National Accounts. We also publish supplementary analyses of data to help users with the interpretation of statistics and guidance on the methodology used to produce the National Accounts.

### National Accounts classification decisions

The UK National Accounts are produced under internationally agreed guidance and rules set out principally in the [European System of Accounts \(ESA 2010\)](#) and the accompanying 'Manual on Government Deficit and Debt -Implementation of ESA 2010'. ([Link to Government Deficit manual: \[Office for National Statistics\]\(http://ec.europa.eu/eurostat/en/web/products-manuals-and-guidelines/product?p\_auth=Khlyd5f4&p\_p\_id=estatsearchportlet\_WAR\_estatsearchportlet&p\_p\_life\_cycle=1&p\_p\_state=maximized&p\_p\_mode=view&\_estatsearchportlet\_WAR\_estatsearchportlet\_action=search&text=Manual+on+Government+Deficit+and+Debt+-+Implementation+of+ESA10+-+2013+edition</a></u></a> \)</p></div><div data-bbox=\)](#)

In the UK, ONS is responsible for the application and interpretation of these rules. Therefore ONS makes [classification decisions](#) based upon the agreed guidance and rules, and these are published on our website.

### **Economic context**

ONS publishes a monthly [Economic Review](#) discussing the economic background, giving economic commentary on the latest GDP estimate and our other economic releases.

### **Seasonal adjustment**

Seasonal adjustment aims to identify, estimate and remove regular seasonal fluctuations and calendar effects from time series data (data that are collected at regular intervals form a time series). Regular seasonal fluctuations are those movements which, on the basis of the past movements of the time series, can generally be expected to reoccur in a similar way in the same period each year.

Calendar effects include impacts caused by the number of working days or calendar days in the month or the dates of particular occasions, such as Easter, within the year. The influence of such effects on a particular month can vary from year to year but they are able to be quantified and adjusted.

### **When to use seasonally adjusted data**

Data that are collected at regular intervals form a time series. The ONS publishes quarterly and annual time series within the UKEA. Those analysing a time series will usually be looking to see what the short and long term movements in the series are and whether any unusual occurrences have had any major effect on the series. This type of analysis is not easy using raw time series data because there will normally be short-term effects associated with the time of year that will obscure other movements. For example, retail sales will go up in December due to the effect of Christmas.

The purpose of seasonal adjustment is to remove the variations associated with the time of the year. If you are interested in comparing consecutive months or quarters, the seasonally adjusted time series will provide a more reliable estimate of change.

### **Availability of seasonally and non-seasonally adjusted data**

ONS publishes quarterly and annual non-seasonally adjusted (NSA) data for all series within the UKEA and where they exist, the corresponding quarterly seasonally adjusted (SA) series also (not all time series data have seasonal patterns and hence the SA series are the same as the NSA series). The annual time series data is not seasonally adjusted across calendar years and so, for calendar years, the annual NSA and NSA data values are the same.

For the sector and financial accounts, the financial accounts and balance sheet quarterly and annual time series data are all non-seasonally adjusted. The income and capital accounts contain both seasonally (where appropriate) and non-seasonally adjusted quarterly and annual time series.

### **UKEA long run time series data**

The UKEA is published at the end of every quarter throughout the year and our [release calendar](#) sets out the forthcoming publication dates up to a year in advance. This provides users with a regular and consistently available set of comparable economic time series data.

All time series data published within the UKEA are available back to 1987 on a quarterly and annual basis with many of the time series having data as far back as 1948 annually and 1955 quarterly.

### **Users and uses of the UKEA**

Data published in the United Kingdom Economic Accounts (UKEA) has a broad range of users. These include other government departments, the Bank of England (BoE), Office for Budget Responsibility (OBR), knowledge and research institutions, financial and non-financial corporations, journalists, the general public, and international institutions.

UKEA data are widely used by government departments to inform and monitor the effect of policy decisions. UKEA data also aid an assessment of the economy: informing the Bank of England's Monetary Policy Committee (MPC) discussions when setting monetary policy and the OBR's forecasts and evaluations of economic growth and public sector finances. The data is also used by knowledge and research institutions such as think-tanks, lobby groups and universities and by researchers, analysts, academics, students and trade organisations.

The UKEA also provides businesses with key statistics and often form the basis on which journalists publish reports and articles. Data series commonly of interest include real household disposable income, gross saving, the household saving ratio, financial wealth and balance of payments data. The UKEA also contain useful information on the holdings of debt for each sector of the economy.

Key users of the UKEA outside of the UK include international bodies such as Eurostat, the European Central Bank (ECB), the Organisation for Economic Cooperation and Development (OECD) and The World Bank. These organisations also use the UKEA to inform and monitor the effect of policy decisions at an international level and to create international comparisons of key economic measures such as Gross Domestic Product (GDP) and Gross National Income (GNI); GNI data provided to Eurostat is used in the calculation of a Member State's contribution to the European Union (EU) budget.

### **Confidentiality**

We are committed to ensuring all information provided is kept strictly confidential and will only be used for statistical purposes. Further details regarding confidentiality can be found in the respondent charters for [businesses](#) and [households](#) on our website.

## Notes

1. Most quarterly data are available seasonally adjusted: those not seasonally adjusted are indicated.
2. Rounding may lead to inconsistencies between the sum of constituent parts and the total in some tables.
3. 'Billion' denotes one thousand million.
4. Symbols used:
  - .. not available
  - nil or less than half the final digit shown

## Periods covered

- 'Q1' or 'Quarter 1' refers to the first quarter of the calendar year, and includes the months January, February and March
- 'Q2' or 'Quarter 2' refers to the second quarter of the calendar year, and includes the months April, May and June
- 'Q3' or 'Quarter 3' refers to the third quarter of the calendar year, and includes the months July, August and September
- 'Q4' or 'Quarter 4' refers to the fourth quarter of the calendar year, and includes the months October, November and December

## Background notes

Details of the policy governing the release of new data are available by visiting the [Statistics Authority code of practise webpage](#) or from the Media Relations Office email: [media.relations@ons.gsi.gov.uk](mailto:media.relations@ons.gsi.gov.uk)

These National Statistics are produced to high professional standards and released according to the arrangements approved by the UK Statistics Authority.

## Special events

The ONS policy on special events can be found [here](#). Special events are events that are identifiable, do not occur on a regular cycle and have at least the potential to have an impact on statistics.

## Notices for this publication

### 1. Correction notice: Balance sheet levels of transferable deposits

During the recent [review of the financial accounts](#), an error was found in the estimates of balance sheet levels of transferable deposits (AF.22) with monetary financial institutions (S.121-123). The assets and liabilities series published by ONS are inconsistent with the source data from the Bank of England. This **error** will be corrected at the earliest opportunity, which will be in the UK Economic Accounts consistent with Blue Book 2016, on 30 June, 2016.

The correction has an impact on the time series from 2004 onwards. It affects both assets and liabilities equally, so there will be no change to the net financial worth of monetary financial institutions, or the UK economy (S.1) as a whole. There is no impact on income measures.

The correction affects item AF.22N1 ('Deposits with UK MFIs') in the following tables;

Table	Title
1.6.9	UK financial balance sheet
4.1.9	Financial corporations: Financial balance sheet
4.2.9	Monetary financial institutions: Financial balance sheet

ONS apologises for any inconvenience caused.

### 2. Correction notice: Holdings of property

As [previously announced in February 2016](#), an error has been identified in the estimate of holdings of property for both Rest of the World assets (direct investment in the UK) and liabilities (UK direct investment abroad). Data from 1999 to 2014 are affected, impacting the following tables and series:

Table	Title	CDID Identifier	Transaction
3.3.9	Financial balance sheet: Private non-financial corporations	NLCB	AF.519N6 (Other UK Equity)
6.1.9	Financial balance sheet: Households and non-profit institutions serving households	NNPC	AF.519N9 (Shares and other equity by the rest of the world)
7.1.9	Financial balance sheet: Rest of the world	NLFF	AF.519N6 (Other UK Equity)
7.1.9	Financial balance sheet: Rest of the world	NLIM	AF.519N9 (Shares and other equity by the rest of the world)

Higher level aggregates within the financial balance sheet of each impacted sector (Households, Private Non-Financial Corporations and Rest of the World) are also affected. Users are advised that there is no impact on other accounts. Further information (including the impact on the B tables within the UKEA) is provided within [the Pink Book 2015](#).

In this publication ONS has corrected the data for 2015. Revised figures for earlier periods will be published within the Quarterly National Accounts and Balance of Payments on 30 June 2016 when the revisions window allows.

ONS apologises for any inconvenience caused.

### 3. Correction notice: Quarterly growth rates for real household disposable income (RHDI) per head

Errors have been identified in the quarterly growth rates for real household disposable income (RHDI) per head in Table 1.1.5. Data from 1955 to 2015 are affected, impacting the following two series;

CDID Identifier	Title
DU8Y	Real disposable income at chained volume prices, percentage change, latest quarter on previous quarter
DU8Z	Real disposable income at chained volume prices, percentage change, latest quarter on corresponding quarter of previous year

These errors have now been corrected. No other series have been affected.

ONS apologises for any inconvenience caused.

### 4. Treatment of European Investment Bank Loans to Network Rail

When Network Rail was reclassified to central government in Blue Book 2015, loans from the European Investment Bank to Network Rail were moved from the private non-financial corporations (PNFC) balance sheet to the central government balance sheet. In most cases, the nature of PNFC loan liabilities is not known and they are classed as short term. However, the European Investment Bank loans are long term loans, and so were deducted from PNFC long term loan liabilities to the rest of the world. This has resulted in negative liabilities in this line. This will be corrected in Blue Book 2016.

This affects transaction AF.424N9 ('Long term loans by the rest of the world') liabilities in UKEA table 3.3.9, 'Financial balance sheet Private non-financial corporations. ESA sector S.11002 + S.11003 (£million, not seasonally adjusted)'

### 5. United Kingdom Asset Resolution (UKAR) asset sale

In November 2015, UK Asset Resolution (UKAR) announced an agreement to sell £13 billion of assets (effectively mortgages). The sale concluded in December 2015; however the resulting reduction in Central Government Long Term Loans Secured on Dwellings (F422N9) is not yet reflected in this quarter's National Accounts data but will be included in future releases

### 6. Addition of per head growth rates to UKEA table 1.1.5

The Quarterly National Accounts (QNA) bulletin contains growth rates within the 'GDP Per Head' table. To bring the UKEA publication in line with the QNA publication, and to provide users with additional and often requested data, 30 new series have been added to the UKEA table 1.1.5. These added datasets and CDID series are shown in the following table.

No series have been removed from table 1.1.5.

## Addition of per head growth rates to UKEA table 1.1.5 (cont.)

	Percentage change, latest year on previous year	Percentage change, latest quarter on previous quarter	Percentage change, latest quarter on corresponding quarter of previous year
Gross national income at market prices at current prices (series IXHS)	DU8I	DU8J	DU8K
Final consumption expenditure at current prices (IH XU)	DU8L	DU8M	DU8N
Gross disposable income at current prices (IH XV)	DU8O	DU8P	DU8Q
Net domestic product at chained volume prices (MWB6)	DU8R	DU8S	DU8T
Net national disposable income at chained volume prices (MWB7)	DU8U	DU8V	DU8W
Real disposable income at chained volume prices (IH XY)	DU8X	DU8Y	DU8Z
Adjusted gross disposable income at chained volume prices (KQ75)	DU92	DU93	DU94
Adjusted net disposable income at chained volume prices (MWB8)	DU95	DU96	DU97
Final consumption expenditure at chained volume prices (IH XX)	DU98	DU99	DU9A
Adjusted individual consumption at chained volume prices (KQ74)	DU9B	DU9C	DU9D

## Links to associated bulletins and further analysis

These links contain further analysis and background of the data contained within this release

[United Kingdom Economic Accounts](#) - UK economic accounts data is available online in pdf, xls, csv, xml, structured text file and navidata formats

[Quarterly National Accounts Statistical Bulletin](#) - A detailed breakdown of the components of GDP as well as key sector accounts aggregates.

[Balance of Payments Statistical Bulletin](#) - Trade in goods and services, income, current and capital transfers, transactions in UK external assets and liabilities, and levels of identified assets and liabilities are detailed within the current account.

[Business Investment Statistical Bulletin](#) - Investment trends for businesses. Contains capital expenditure data at current prices, constant prices and seasonally adjusted.

[Profitability of UK Companies Statistical Bulletin](#) - The net rate of return on capital employed for UK PNFCs' related to their UK operations.

[UK Trade Statistical Bulletin](#) - Monthly statistics on trade in goods classified according to Standard International Trade Classification (SITC) as well as monthly estimates for total trade in services.

[Consumer Trends Statistical Bulletin](#) - Household Final Consumption Expenditure (HHFCE) for the UK. The main tables include all expenditure on goods and services by members of UK households.

[Public Sector Finances Statistical Bulletin](#) - UK Public Sector current budget, net borrowing, net cash requirement and net debt are provided in this release. Data tables are provided.

[Economic Review](#) - Economic commentary on the latest GDP estimate and other ONS economic releases.

1 Non-profit institutions serving households

2 Non-financial and financial corporations

3 Gross operating surplus of General government, and Households and NPISH plus the adjustment for financial services.

**Correction notice: Quarterly growth rates for real household disposable income (RHDI) per head**

Errors have been identified in the quarterly growth rates for real household disposable income (RHDI) per head in Table 1.1.5. Data from 1955 to 2015 are affected, impacting the following two series;

<b>CDID Identifier</b>	<b>Title</b>
DU8Y	Real disposable income at chained volume prices, percentage change, latest quarter on previous quarter
DU8Z	Real disposable income at chained volume prices, percentage change, latest quarter on corresponding quarter of previous year

These errors have now been corrected. No other series have been affected.

ONS apologises for any inconvenience caused.

1 Estimates cannot be regarded as accurate to the last digit shown.

2 Components of output are valued at basic prices, which excludes taxes and subsidies on production.

3 Weights may not sum to the totals due to rounding.

4 Comprising sections R, S and T of SIC(2007).

1 The residual error is, by convention, the amount by which the expenditure-based approach to measuring GDP exceeds the income-based estimate. It is also the sum of two components: the statistical discrepancy (expenditure) with sign reversed, and the statistical discrepancy (income) with natural sign.

2 Income data deflated by the implied GDP deflator, based on expenditure data.

1 The sector includes public Monetary Financial Institutions.

2 An inconsistency exists between annual non-seasonally adjusted and seasonally adjusted data in D.611 Employers actual social contributions and D.612 Employers' imputed social contributions for 2013 only. This will be amended in the next publication.

1 Gross household disposable income deflated by the households and NPISHs final consumption deflator.

2 An inconsistency exists between annual non-seasonally adjusted and seasonally adjusted data in D.611 Employers actual social contributions (Uses) and D.612 Employers' imputed social contributions (Uses) for 2013 only. This will be amended in the next publication.

1 Using series YBHA: GDP at current market prices

2 When downloading data from the UKEA dataset users should reverse the sign of series that have an identifier that is prefixed with a minus sign.

3 This series represents net errors and omissions in the balance of payments accounts. It is the converse of the not seasonally adjusted current and capital balances (HBOG and FKMJ) and net financial account transactions (HBNT) and is required to balance these three accounts.
